INDICATIONS

For the treatment of metabolic disorders of various etiologies in cattle, horses, sheep, goats, dogs, cats and fur-bearing animals. It provides stimulant and restorative effects in cases of postpartum paresis, paralysis, hypotrophy, convalescence.

DOSAGE AND ADMINISTRATION

For intramuscular, subcutaneous or slow intravenous injection once daily for 4-5 days:

Cattle, horses: 10-25 ml per animal.

Calves, foals: 5-12 ml per animal.

Sheep, goats: 2,5-8 ml per animal.

Lambs, kids: 1,5-2,5 ml per animal.

Pigs: 2,5 -10 ml per animal.

Suckling piglets: 1-2,5 ml per animal.

Dogs, cats: 0,5-5 ml per animal.

Fur-bearing animals: 0,5-2,5 ml per animal.

If necessary, the treatment may be repeated in 5-14 days.

Uberin is not intended to replace an etiotropic therapy that might be needed.

PHARMACOLOGICAL PROPERTIES

Uberin possesses tonic properties, improves metabolic and regenerative processes and resistance to diseases caused by adverse environmental conditions, normalizes protein, carbohydrates and fat metabolisms, stimulates growth and development of young animals.

Butafosfan is an organic phosphorus compound, which influences many assimilation processes in the body. It takes part in glycogen metabolism, replenishes serum phosphorus levels, supports liver function, stimulates fatigued smooth and cardiac muscle, ADP/ATP energy cycle, bone tissue formation, normalizes the level of cortisol in the blood, stimulates the synthesis of protein, accelerating the growth and development of the animal, as well as the reparative properties of organs and tissues. Phosphorus organic compounds do not accumulate in the body or cause adverse reactions as other stimulants or inorganic compounds may do.

Vitamin B₁₂ (cyanocobalamin) stimulates hematopoiesis. It is involved in creatine (energy source for muscle) and acetylcholine (neurotransmitter) biosynthesis, stimulates fat metabolism, and carbonic acid conversion, feed conversion rate, and methionine biosynthesis.

CONTRAINDICATIONS

None known.

ADVERSE REACTIONS

No undesirable effects are to be expected when the prescribed dosage regimen is followed.

DRUG INTERACTIONS

None known.

WITHDRAWAL PERIODS

Meat/Milk: zero days/hours.

SPECIAL WARNINGS

Dispose of any unused product and empty containers in accordance with guidance from your local waste regulation authority.

USER WARNINGS

People with known hypersensitivity to any of the ingredients should avoid contact with the product. Dermal and ocular exposure should therefore be avoided. In case of exposure rinse the skin and/or the eye with water.

STORAGE CONDITIONS AND SHELF LIFE

Store in the original package between 5°C to 25°C, protected from light and moisture.
